I want to start by thanking the review board for this honor and opportunity. Receiving a Theodore Roosevelt Association Scholarship has helped me financially and has given me extra freedom to focus on my academic and future career. As I intend to continue my studies to attend medical school after graduating with my bachelor's degree, this scholarship assists me with more than just finances. It represents encouragement and belief in my potential and inspires me to work hard towards my goal. Becoming a doctor is both long and demanding in many ways so to be given this scholarship and the assistance it provides has helped to ease the financial burden on myself and my family and helped me look towards my future.

As someone who strongly values learning, this scholarship has also provided me with steppingstones to continue my journey. This scholarship gives me the freedom to cherish my last year at Northeastern University and to take in the wonderful learning opportunities I am given. I appreciate the generosity of the Theodore Roosevelt Association and intend to continue to cherish the opportunity provided through this scholarship.
