Physiology & Behavior

Academic & Extracurricular Highlights:

- Varsity Girls Ice Hockey
- Interscholastic Equestrian Association (IEA) Hunt Seat Team
- Equestrian
- Science & National Honor Society
- Potomac Animal Wellness
- Camp Maria Retreat Center Intern

I am incredibly honored and thankful to be a Wings Over America Scholarship Fund Recipient. I will be attending the University of California Davis in the fall of 2025 majoring in Animal Science on the Pre vet track. I also hope to have a double major in Neurobiology, Physiology, and Behavior. The Wings Over America Scholarship will help to cover a large portion of my tuition, making my goals more attainable by easing any financial stress. My long-term goal is to become an equine veterinarian either specializing in research and education or going into equine sports medicine. In my free time I love to read, create, spend time with friends, spend time at the barn, go to the beach, and paddle board. I own a horse named Solo, and she is the reason I want to become a veterinarian. Following her back surgery in 2024 I became invested in equine sports rehab firsthand and thoroughly enjoyed it. One day I hope to own my own rehab and research hospital and potentially breed and train sport horses. I am super thankful to be a Wings Over America Scholarship Fund recipient of the scholarship.
