- Pep Band

As I reflect on the first year of my college career, I only grow in my deep appreciation of this opportunity. My growth this year has been tremendous, both in my musical expertise and my skills in organization and time management. To me, this scholarship means I have the honor of doing music everyday alongside an incredibly supportive community and an even more supportive group of faculty. It has allowed me to not only continue my passion for music but grow in my knowledge of it. I intend to be an educator when I graduate, and I am grateful that I can constantly pursue extracurriculars, studies, ensembles, and leadership roles that push me to become the best educator I can be. I intend to continue what I have started this year using this scholarship, taking advantage of the array of musical ensembles, classes, and research/mentorship opportunities, picking up a minor in sociology, working alongside the Director of Bands as an Ensemble Assistant, and serving as the drum major of the Marching Virginians. Thank you so much for this amazing opportunity and for being willing to allow me to continue my educational career, I remain grateful, and I will remain grateful with every opportunity I take.
