I am deeply honored and grateful for being chosen as a recipient of the Theodore Roosevelt Association Scholarship. Throughout my life I have experienced frequent moves, long periods away from my father, and the uncertainty that often comes with Navy life. These experiences have taught me resilience, adaptability, and perseverance. Receiving this scholarship is a privilege and a reminder of the responsibility that comes with serving others. I appreciate the generosity and confidence shown in me by the scholarship committee and supporters of the USS Theodore Roosevelt family, past and present.

This scholarship opportunity provides a sense of relief on the financial burden associated with attending college and reaffirms my hard work has not gone unnoticed. Further, this award reinforces my commitment to leadership, integrity, service, and academics. Moving forward, I hope to use the knowledge and skills I gain to positively impact and give back to my community. Thank you again for this honor and for investing in my future. I am proud to be part of the USS Theodore Roosevelt family and will continue to represent the values associated with this scholarship through my achievements and service.
