- Outdoor Recreation's Himberg Pool Lifeguard
- National Honor Society, President
- Mu Alpha Theta Chapter, President
- Saint Jude's Catholic Parish, Volunteer

I am incredibly honored to receive a scholarship from the Wings Over America Scholarship Foundation. In helping to relieve the financial burden of attending college, this scholarship will allow me to fully seize the educational opportunities offered at the Georgia Institute of Technology. Growing up as a kid in the Naval aviation community, I have developed a fascination for air and spacecraft throughout my life. While I pursue this passion through a bachelor's degree in aerospace engineering, I will be able to take advantage of all the amazing extracurricular academic activities available, while mitigating the need to work. I am super excited to spend my time participating in rocketry teams, research opportunities and internships with industry leaders. Through all these opportunities, I will be able to experience the forefront of aerospace innovation firsthand, bringing inspiration and enhancement to my in-class learning. I cannot express enough the gratitude I have for the WOASF donors who made this scholarship possible. Each of your donations ensures dependents of the Naval aviation community can pursue our educational and career dreams. Thank you for this scholarship; I am very grateful for the benefits it provides to my education and future career.
