I am eternally grateful for the generosity of Wings Over America in providing scholarship funds to further my undergraduate pursuits. As a young adult, I want to ensure that I properly set myself up for success as an aspiring certified public accountant; however, financial struggles have often left me overwhelmed and discouraged that such goals are achievable. With this scholarship, the financial burden of funding tuition has been lifted, which will enable me to begin senior year confidently focusing on my studies to become a competent and competitive accountant. Aside from meeting financial needs, I am honored that Wings of America would consider me because of my father's service as a Naval aviator. Being the daughter of a Naval aviator has taught me that our freedoms come at a cost, which should never be taken for granted. I have also learned through constant change in moving that adaptability, resilience, independence, and discipline are character traits necessary to be set apart amongst my peers and core values that have made me who I am today. I am proud to be a military child and honored to be supported by an organization that understands and uplifts the military community.
