

2 Circle Incorporated Scholar

Tyler Frostad

Norfolk, Virginia

Sponsor: CAPT Eric Frostad

College: Old Dominion University

2025-2026: Junior

Major: Mechanical Engineering

Minor: Drone Engineering

Academic & Extracurricular Highlights:

- ODU AIAA Student Member
- ODU ASME Student Member
- High School Varsity Baseball Captain and State Champion
- Youth Sports Mentor
- Veterans Band Aid Music Festival Volunteer
- Lynnhaven River Now Volunteer
- Sumitomo Drive Technologies Internship

Receiving a 2025 scholarship from WOASF represents both meaningful financial support and a strong vote of confidence in my goals and potential. As a college student pursuing a degree in mechanical engineering with a minor in drone engineering, this scholarship allows me to focus more fully on my education and career development by relieving the financial pressure that often accompanies higher education.

The scholarship also supports my continued involvement in student organizations such as ASME and Tau Sigma National Honor Society, where I've found opportunities to grow academically and connect with others who share a commitment to excellence and leadership. These organizations have played an important role in shaping my college experience by encouraging both technical skill development and community engagement—values that align closely with the mission of WOASF. With this support, I am better positioned to pursue my goal of becoming a licensed engineer and contributing meaningfully to the engineering field. This scholarship reinforces my motivation to succeed and serves as a positive example for others from similar backgrounds.
