- National Honor Society Chapter

I am extremely honored and grateful to receive a 2027 WOASF scholarship. This scholarship will aid my undergraduate journey, allowing me to engage in a college atmosphere where I can continue to grow as a student and leader. I am committed to excel academically and within the community at Boston College next year, and these scholarships will be a great financial support to my journey after high school. I am proud that this opportunity reflects my accomplishments, and I am humbled that WOASF and the VAW/VRC recognized and appreciated my dedication to my work and community. Receiving these scholarships would not have occurred without my father's many years of service and dedication to our nation in the US Navy. His passion and devotion to our country and his role as a Naval Aviator never went unnoticed. Thus, I would like to thank him for being an incredible role model to me and for always setting a strong example of character. Once again, thank you to the WOASF for their recognition of military families and for supporting my future studies.
