- Member, Tuskegee University E-Sports Club
- Member, National Honor Society
- Gamma Phi Delta Sorority, Incorporated
- Greater Huntsville Interdenominational Ministerial Fellowship (GHIMF)
- Progressive Union Missionary Baptist Church Camp Counselor

I'm truly honored and grateful to be a recipient of the VVOSA Merit Scholarship through the Wings Over America Foundation. I remain thankful for the opportunity to apply, made possible through my father's honorable service in the United States Navy. As I complete my freshman year at Tuskegee University and prepare to enter my sophomore year, I am proud of the progress I have made as a Computer Engineering major. This past year has challenged me academically and helped me grow both intellectually and personally. I have continued to build on my long-standing interest in engineering, which began in middle and high school through STEM courses and hands-on experiences.

This scholarship has significantly reduced the financial burden on my family, allowing me to focus more on my education rather than financial concerns. Being away from home has made that support even more meaningful.

As I move into my sophomore year, I remain committed to academic excellence, gaining practical experience, and continuing to grow in the field of computer engineering. I am sincerely grateful for this support and the opportunities it provides.
