Raytheon Scholar

Christopher Kousky

Brunswick, ME

Sponsor: CDR Todd Kousky

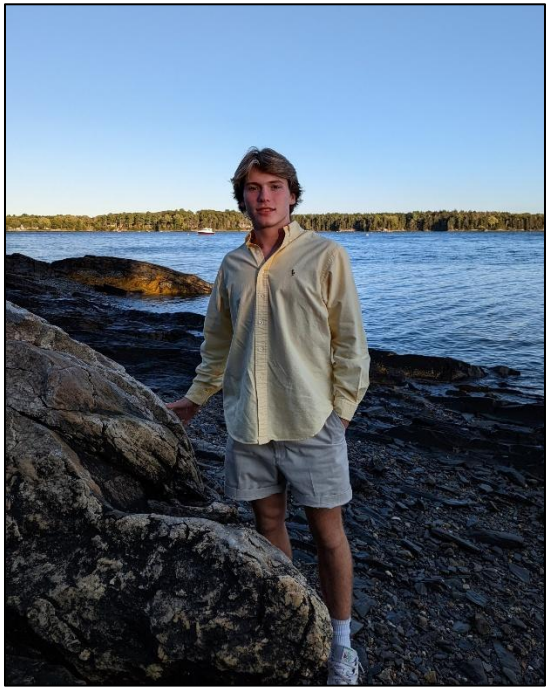

College: San Deigo State University

2026-2027: Senior

Major: Civil Engineering

Academic & Extracurricular Highlights:

- SDSU AGC/CMAA Chapter Member
- Sigma Nu Fraternity Member
- Intramural Lacrosse
- POWER Engineers (Member of WSP) - Civil Engineer Intern
- Aztec Rocks Hunger Volunteer
- POWER Engineers (Member of WSP) Internship
- Balfour Beatty Engineering Internship

Receiving a 2027 MPA and WOASF scholarship means so much to me. As I have one more year left of college, this almost guarantees my goal of graduating college debt-free. As an engineering student, it is very hard to work a job while taking a full 18-credit course load. This past junior year has been rigorous in this way. With this scholarship, I will definitely be able to focus more on just school rather than finding a way to pay my way through it. This is a pleasure that I am very grateful for. I also received WOASF scholarships in my past years that have guided me through my college career. If it wasn't for this incredible foundation, I would not be where I am today. I want to deeply thank the foundation, the leadership, and especially all of the donors that make this possible for myself and others. It is truly inspiring what this foundation accomplishes and motivates me to one day give back!
